## GREAT OAKS FEATURED ARTIST!

### MEET OHI!

Would you believe that this is the first time that our featured artist has ever created a digital mosaic?

Ohi created this intricately detailed portrait of Draco Malfoy from the Harry Potter movies for her Skill Builder introduction to Google Drawings. Ohi did an amazing job adding a full range of values to this portrait. Her use of line in his hair adds the illusion of a smooth texture that complements the rest of the mosaic! Great job, Ohi!

## CRITIC'S CORNER

"Insane. Impressive. THIS IS INSANE. They are so impressive, like how did they make the hair! So many details! How did they make the lips?!"

## GOT TEA?

### AND THE GOLD MEDAL GOES TO...

The Olympics wasn't always about physical strength and endurance. The founder of the modern Olympic Games, the Baron Pierre de Coubertin, was enamoured with the idea of the true Olympian being a talented artist AND sportsperson. Thanks to him, between 1912 and 1948, medals were given out for sporting-inspired masterpieces of architecture, music, painting, sculpture, and literature.

Medal winner Jean Jacoby's "Corner" (left) and "Rugby" (right).
